DEMINE OF EDWIN L. STANTON—A RESIGNT LIGHT THAT HAS GORE OUT FROM THE LEGAL MINIMA.

After a long and painful illness, in which he endured much suffering, Mr. E. L. Stanton died at his residence, No. 1709 Rhode Island avenue, yestenky moraling, shortly after 5 o'clock. For months past he has been physically unfitted for the prosecution of the labors that his profession entailed upon him. He would allow a few days' intermission for recruation and then ruture to his "hriefs" with the same persistency to accomplish the work in hau l, as that which had always characterized any undertaking in which he became engaged. Unfortunately he did not permit himself sufficient relaxation from the arduous duties and confinement of the calling that he had alopted, and these overtaxed a body not robust when in the vigor of health, and too late he found himself prostrated in a hed of lilness from which he was never destined to a rise in life.

The deceased was a sative of the State of Pennaylynania, born in 1882, and a son of Edwin M Stanton, who, by his superior management of the War Department during a portion of the Administration of President Lincolo, attained the title of the great War Sicretary. The son, at the uge of seventeen years, was sent to Romyou college, Ohio. Ho immediately devoted himself to the studies of his class, from which position he could not be disclosed by his college-mates until graduation day, in 1893. THE DEAD LAMPLIGHTER.

B INQUEST OVER THE BODY OF M'INTO

ADDOURNE DATE. THE BODY OF M'INTONE ADDOURNE DENTH. TO-DAY.

The coroner held an inquest yesterday over the body of McIntonh, the lamplighter, who was run over by the Quantice train on Maryland and accence on Tucoday night and killed. Several witnesses were examined, and the testimony elicited corresponded with the state-much of the accident published in yesterday's RECURLICAN. The lamp at the corner of Sixth and C streets he had extinguished, and is crossing over to the lamp in the middle of the square was run over by the train.

There are several theories as to the manner in which he was killed. Some state that he was standing in the space between the two tracks to avoid both trains, and was struck by one and pitched in front of the other.

Dr. Reilley testified that he attended the dying man, and found both joints of the left log and arm badly fractured, and also found numerous wounds around the head. His left flow was also horribly smashed. The Doctor stated that the injuries were sufficient to cause deth.

Several porsons present at the inquest gave it

fout was also nurrow accessed to cause death.

Several persons present at the inquest gave it their opinion that there is a law requiring railroad companies to station a flagman at each crossing, and also one regulating the speed at which trains should travel. There was no flagman stational at the corner where was no flagman stational at the corner where was no flagman stational at the sales testified that one of the trains was running at a rate unusual and unasfe to polestrians.

One witness testified that he had soon trains traveling throughout the city at the rate of from ien to twenty miles per hour, but it is very probable that he is estimate was exaggerated.

An ays-witness testified that he saw the decassed put the light out on the corner of
Sixth and C streets, and that he was crussing
diagonally to axtinguish the lamp opposite,
and, seeing the train on the west track approaching, remained on the east track, and
was run over by the train backing into the

was run over by the train backing into the depot.

The jury adjourned until to-day at 10 o'clock without rendering a verdict, in order to allow several witnesses who were absent to give their testimony. The testimony so far adduced shows sulpable negligence on the part of the company in not stationing flagmen where they are needed and in running their trains at a rate of speed dangerous to life and limb.

A committee of five, representing the railroad company, called upon the widow of the deceased yesterday and affered to render her any assistance she wished. The offer was not accepted, as she thought it was in the nature of a compromise. She intends to enter suit against the company and will, no doubt, succeed in getting judgment against them.

A SUIT FOR LIBEL.

Adolph Liebschutz, through his counsel, Mossrs, M. Thomsson and J. T. Close, has entered suit against Webb McNall for libel, fixing damages at \$14,000. The complainant charges that the "defendant caused to be written and published the following: "That during the session of the Kunsas Legislature of 1870 the mid Liebschutz was continually about the building, and one time carried off the overcoat of John Carter, the first assistant doorkcoper. And at another time William Irving, the postmaster, detected him in trying to steal a fur cape and a pair of fur gloves from the post office, and when detected he ran out of the room." By the publication of those articles he has been greatly injured and his good name impaired.
